

**CANDIDATE FOR THE POST OF VICE PRESIDENT
CANDIDAT AU POSTE DE VICE-PRESIDENT**

KHALID EL HARROUNI

MOROCCO - MAROC

Full professor of civil engineering and computational mechanics. Deputy Director of Research at Ecole Nationale d'Architecture (ENA), Rabat. PhD in 1994 (University of Portsmouth, UK) and Civil Engineering Diploma (EMI, Rabat, Morocco).

Member of ICOMOS Morocco since 2002, Vice president (2013- 2020). Expert member since 2012 and Vice president of ISCARSAH (2014-2020). Invited Expert to the Board of ICOMOS International (2018-2020). Member of ISCES since 2017 and recently Member of SBH.

PLATFORM / PLATE-FORME / PLATAFORMA

I am honored to submit my candidacy for a position on the Board of ICOMOS International 2020-2023. The Culture and the Heritage (material and immaterial) have always been a great interest of mine. In fact, I got to further experience this attraction towards these issues while working as a teacher, and later, as a Member of ICOMOS Morocco. Now, as Professor and Invited Expert to the Board of ICOMOS International for the period 2018-2020 and following my activities within ICOMOS Morocco, within some ISC (ISCARSAH as VP, ISCES and SBH as member) and within the Working Groups of ICOMOS, SDGWG and CCHWG, as National Focal Point, I continue to pursue a line of education, training and research designed to enhance equitable heritage practice. Through my researches, I examine the cross-heritage and cross-cultural experiences of people, adolescents, educators and professionals in heritage learning, instruction, and assessment, with the goal of further clarifying the relationship between culture and heritage and assessment practices useful for underserved youth. I do so, through a transdisciplinary lens that considers what is between, above, and beyond disciplines across the fields of sociology, geography, architecture, engineering, linguistics, ... counseling, multicultural education, and higher education. All these observations lead to the goal of clarifying the ways in which heritage (one) has become heritages (more than one).

Beyond this, I am serving on Editorial Board of the International Journal of Architectural Heritage: Conservation, Analysis, and Restoration, Taylor & Francis; and of the International Journal of Heritage Architecture, WIT Press. I am also Editor in Chief of African and Mediterranean Journal of Architecture

and Urbanism (AMJAU) <https://revues.imist.ma/index.php?journal=AMJAU> which could be extended and explore other fields of research and other themes relating to heritage architecture and landscape, architectural engineering, urban engineering, interdisciplinarity in architecture, or even the practice of architecture and urban planning, the practice of urban planning, climate change, energy transition, resilience, sustainability,

Like I have received from this organization, I wish to give back more to ICOMOS. I have many memorable experiences with this Organization such as attending the 17th GA 2011 in Paris; the 18th GA 2014 in Florence; the 19th GA 2017 in New Delhi; the ICOMOS board meetings and zoom meetings; and when co organizing the last ICOMOS Advisory Committee, Annual General Assembly and Scientific Symposium in Marrakesh, 2019. As well as the positions that I have held during my tenure with my institutions and ICOMOS have been an asset in developing my skills and meeting individuals for each segment of ICOMOS organization. All these activities and positions taught me leadership qualities, time management and how to work in a team.

As a Member of ICOMOS International Board, I will: 1. Seek and create opportunities for increased cross-cultural, cross-heritages across ICOMOS organization; 2. Identify and develop opportunities for increased the relationship between Culture and Heritage; and 3. Extend ICOMOS structures that allow for cross-cultural interactions between national and international members based in all the countries from all the Regions and Continents.

Through these strategic initiatives, I anticipate a greater and equitable impact of Culture and Heritage, and an increased membership of ICOMOS from diverse backgrounds. I will also go far in making our world of Heritage a better opportunity for our society and the future generations.

I am confirming that I will serve in the office and attend Board and Bureau meetings if elected VP, and if not elected to the Bureau will still serve as a Board member and attend Board meetings.

Rabat, 6/04/2020
Khalid EL HARROUNI (PhD, Eng.)

CURRICULUM VITAE

Full professor of civil engineering and computational mechanics. Deputy Director of Research at the Ecole Nationale d'Architecture (ENA), Rabat, Morocco. Responsible of Doctoral Studies Centre "Architecture and related disciplines" of the ENA. Editor in Chief of African and Mediterranean Journal of Architecture and Urbanism (AMJAU) <https://revues.imist.ma/index.php?journal=AMJAU>

Expert scientific evaluator appointed by the National Centre for Scientific and Technical Research, Morocco, since October 2019 for a period of 3 years within the Scientific Committee.

Member of the steering committee of "Higher Degree in Architecture Heritage", diploma organized by the City of Architecture and Heritage - Chaillot School, Paris and ENA Rabat, since 2014.
