

ICOMOS Italy - Event proposals to celebrate the International Day of Museums and Sites 2023 focusing on "Heritage Changes" (rev April11, 2023)

Contributions will be published on the initiative pages and shared on the ICOMOS Italia website (<http://www.icomositalia.com/>) and ICOMOS Italia social media (Facebook, LinkedIn, Instagram)

Proposal CIF

Title	Innovative and Transformative Climate Actions
Who? Organizers	NSC CIF - ICORP, Municipality of Urbino (World Heritage Site Office), University of Urbino
What? Brief presentation	<p>Conference</p> <p>The activity is part of a series aimed at increasing knowledge and awareness of Urbino's World Heritage Property Historic Center and its surroundings..</p> <p>The seminar is part of a series of activities that includes a face-to-face workshop, four online panels, and a final face-to-face camp in which young people from the city and surrounding area were and will be invited to reflect on the importance of cultural, environmental, and intangible Heritage, as well as issues related to the environment, climate change, adaptation to these changes, and reducing climacteric emissions.</p> <p>Concept</p> <p>The municipality of Urbino, with the support of the University of Urbino and the backing of the Covenant of Mayors and the Santagata Foundation, planned and is implementing this cycle of activities as part of the updating of the World Heritage Management Plan.</p> <p>These actions, along with other activities aimed at residents, tourists, and economic operators, will result in the updating of the World Heritage Property's Management Plan and the integration of the Plan and the SECAP - Sustainable Energy and Climate Action Plan, in the belief that world heritage site management cannot ignore climate change issues (adaptation and mitigation).</p>
When?	April 18, 2023
Where? Country, city	Urbino
Official contact	lalessandrini@comune.urbino.ps.it

Joint Proposal CIF / ICORP / EPWG Italy

Title	Prevention and sustainability as a critical tool for climate change issues in world heritage management (I) and (II)
Who? Organizers	ICOMOS Italia (CIF / ICORP / EPWG Italy), Centro Conservazione e Restauro "La Venaria Reale" (CCR)
What? Brief presentation	<p>The interactive workshop was developed as part of the Young Professionals Forum 2023 - Emerging Skills for Heritage Conservation, How Leadership, Strategy, and Networking Impact Preventive Conservation. The primary goal of the Forum is to facilitate access and positioning of cultural heritage professionals through skill acquisition and network formation.</p> <p>Participants in interactive workshops can ACT on practical case studies and reflect on current issues. The keywords will be leadership, strategy, and networking. The interactive workshop was created as part of the Young Professionals Forum 2023 - Emerging Skills for Heritage Conservation: How Leadership, Strategy, and Networking Influence Preventive Conservation. The Forum's primary goal is to improve access and positioning for cultural heritage professionals through skill acquisition and network formation.</p> <p>Concept</p> <p>According to the Global Research and Action Agenda, traditional knowledge, heritage, and cultural practices can serve as a bridge between different ways of knowing, embody inherited knowledge accumulated over generations, and serve as entry points for innovative and inclusive climate action solutions. Recognizing, respecting, and implementing recommendations and traditional and innovative solutions inherent in culture, heritage, and creative practices is required. These must interact with industry and be integrated into planning methods.</p> <p>Based on this assumption, the Italian National Committee of ICOMOS is developing a baseline discussion of complex narratives that have provided scope for more meaningful discourse during the 2021-2023 triennium on "Heritage Changes,"; theme of the 2023 International Day of Monuments and Sites, in collaboration with the ISC CIF, the ISC ICORP, and the Italian Section of the Group of Emerging Professionals. The seminar will be structured around an opening session in which experts will present case studies to the audience (Appia Regina Viarum). Participants will be encouraged to submit points/topics to be addressed via a pre-circulated questionnaire during the second session.</p> <p>The YPF partners propose six interactive workshops with activities on cross-cutting topics.</p> <p>See full programme (https://www.centrorestaurovenaria.it/sites/default/files/inline-files/YPF%202023_Programme_33.pdf)</p>
When?	May 18-19, 2023
Where? Country, city	Campus and online seminar
