TO ALL THE MEMBERS OF THE ICOMOS ISC on Theory and Philosophy of Conservation and Restoration

TO ALL THE MEMBERS National and International Scientific Committees of ICOMOS

SUBJECT: invitation to the VI Annual Meeting of the ICOMOS ISC Theory and Philosophy of Conservation and Restoration “Paradigm Shift in Heritage Protection: Tolerance for Changes, Limits for Changes” – Florence (Italy) 4th-6th March 2011

Dear Colleagues,

Doubtlessly, all members of our committee have already heard about our great loss. On the 25th of October our Chairman, professor Andrzej Tomaszewski passed away. Andrzej remained active until his very last days planning publications and organizing the conferences. Among other things, he schemed the conference of our committee, which was supposed to take place on 4th-6th March 2011 in Florence.

Having consulted this matter with colleagues (Wilfried Lipp, Michael Petzet, Paolo del Bianco, Gustavo Araoz) we have decided, that the best way to commemorate Andrzej's work, is to continue his intention and hold this conference according to the agreement with the Romualdo Del Bianco Foundation, officially signed by Andrzej and Paolo last 2008 (at the presence of the representatives of UNESCO in Florence and the City). Paolo Del Bianco on his side, as President of the Foundation and as person, confirms the signed agreement and his invitation and the attendance of Foundation in organization of the conference.

We have resolved that the subject of this year’s conference should be “Paradigm Shift in Heritage Protection: Tolerance for Changes, Limits for Changes”. This corresponds directly with the motto “Tolerance for changes”, which in the terms of necessity of changes in both theory and practice of preservation, is recently discussed by the members of ICOMOS.

Organizing a conference “Paradigm Shift in heritage conservation” in Prague in May 2010, our Committee showed its will to be a part of this discussion. Long debate during the meeting has clearly showed that the tolerance for change in preservation theory should be accompanied by exact recommendations about the acceptable range of the changes. That is why, these two subjects: “Tolerance for Change” and “Limits of change” ought to be an integral part of the issue.

Moreover, materials from conferences in Prague (May 2010) and in Florence (March 2011) will be published together.

Meeting in Florence will be also an opportunity to discuss the future activities of our Committee. Here below you will find a tentative program and the other details for your participation.

Sincerely Yours,

Prof. Bogusław Szmygin
Secretary ISC Theory and Philosophy of Conservation
VI Conference
ICOMOS International Scientific Committee
Theory and Philosophy of Conservation and Restoration (TheoPhilos)
In Memoriam Andrzej Tomaszewski

TITLE: Paradigm Shift in Heritage Protection: Tolerance for Changes, Limits for Changes

Wworking days: Saturday 5th and Sunday 6th March, 2011

TENTATIVE PROGRAM: Thursday, 3rd March, 2011: arrival
Friday, 4th March, 2011: opening
- Morning-early afternoon (until h.16.00): cultural program to be confirmed
