BIOGRAPHY OF MR TIONG KIAN BOON

Born and brought up in the old trading city of Malacca. I received my professional education and training as an Architect in England. Since qualifying as an Architect, I had worked with the government of Malaysia, as a mid-level position in a then fledging home grown Malaysian Multinational Company which now has presence in European and Asia Pacific region. I had spent the last 30 years practising as an architect in the historic city of Melaka pursuing my interest in heritage conservation.

I was instrumental in the formation of ICOMOS Malaysia, mobilising grass root support in the pre-formation stage, registration with the National Government and currently serving as the Secretary of the National Committee.

I had also served and continue to serve on various government committees relating to conservation management in Malaysia.

ELECTION STATEMENT

I am honoured by my colleagues and the President of ICOMOS Malaysia for the nomination as a Candidate at this year election to the Advisory Committee.

If elected, I will continue to advance the agenda of ICOMOS especially in South East Asia. I had been actively promoting bilateral and multi-lateral partnerships between the National Committees of South-East Asia in the last year.

As a member of one of newest National Committees in the ICOMOS family, I hope my election as a member of the National Committee will empower new National Committee's to contribute to the ICOMOS family. I had been active in the ISC Share Built Heritage.

I look forward to support from the National Committees of ICOMOS.
