1-2	Opening remarks	SB explained that the Advisory Committee Officers have been meeting by teleconference monthly since their election at Fukuoka. Deirdre and Sheridan attended the Board meeting in Paris in March and Sheridan participated in the Board meeting in Istanbul in June by phone link. We have identified 8 major priorities for our Adcom mandate, and invited comment and input on these in	SBu

		<p>the Advisory Committee Presidents Reports (June, September) which were pre-circulated to all members. The ACOs priority objectives for the triennium ahead are:</p> <ol style="list-style-type: none"> <li><b>1. Facilitating younger member engagement with ICOMOS</b></li> <li><b>2. Revising ICOMOS Communications and the Annual Reporting process</b> Improving communications within NCs and ISCs- we have developed templates and processes to streamline the annual report, introducing a short annual report aiming to get basic information for use in promotion and get general information about the NCs Then a longer triennial report in GA year which includes compliance matters first one will be prepared next year for Delhi. We aim to have these reports to be made available online. System trialled this year. A Communications Plan will be presented to the Adcom by the Secretariat as a means of improving member communications and responses. Input is invited and welcome</li> <li><b>3. Supporting and monitoring the development of NCs and ISCs</b></li> <li><b>4. Clarifying new World Heritage roles for ISCs and NCs</b></li> <li><b>5. Improving member communications within ICOMOS</b> and developing opportunities for using social media We have invited the secretariat to present the current status and change s proposed</li> <li><b>6. Developing and promoting a timely and pertinent Scientific Program for the triennium</b>, encouraging dialogue on the themes identified in Fukuoka</li> <li><b>7. Providing for meaningful input to the ICOMOS triennial plan (and budget)</b> Its important for everyone to provide input to this important setting of organisational priorities - KK is this morning conducting a workshop with the NCs to provide input and another this afternoon in the Adcom, as well as at lunchtime tomorrow for SC input</li> <li><b>8. Engaging members in major ICOMOS initiatives and programs</b> such as the human rights based approaches to heritage management, the Nature-Culture Journey, the ICOMOS reconstruction statement and the ICOMOS universities initiative, The Istanbul meeting agendas for both SC and NC thus include presentations and discussions on all these programs.</li> </ol>			
1-3	Approval of the agenda	<p>SBU noted that this is the first time that there has been a separate NC meeting. Several items appear both on the NC and SC agenda for discussion with resolutions from each to be brought forward to the Advisory Committee. This is an experiment and we seek feedback on this opportunity, which due to timing constraints means that NC presidents are not able to join the SC meeting, but have an opportunity to share issues amongst the regions. In defining the agendas we have had to include some duplication, which will be resolved at the Adcom.</p> <p>Agenda approved Moved Sue Stepowski Jackson Seconded PJ</p>

2-3	Changes to Statutes and implications for the international Scientific Committees Pre-circulated paper and discussion (not for decision at this meeting)	PP makes the presentation: Peter noted that in essence, the statutes provide the legal framework of ICOMOS and the rules of procedure provide the means by which we put the statutes into effect and operational mechanisms. Comment is sought today on the first draft of consolidated rules. The Board prepares rules; GA approves rules. <b>Key Rule Changes for the Advisory Committee to consider</b> <ul style="list-style-type: none"> <li>- Timing of applications to host GA</li> <li>- Appointment of GA Committees a year in advance</li> <li>- Candidatures and timing of nominations</li> <li>- Conduct of meetings</li> <li>- Recording and minutes of meeting should be given to this committee</li> <li>- Decision between meetings process</li> <li>- Reviewing Committee performance</li> <li>- By-laws (not statutes) for Scientific Committees (ICLAFI is currently preparing their model by-laws which will be available next year). <b>3</b>	<b>The Nature-Culture Journey</b> PowerPoint presentation and Hawaii Communique pre-circulated		KK, PP, SMcT		
3-1	Reports on activities at the IUCN Congress, Hawaii 2016	SMcT introduced the joint ICOMOS-IUCN program led in 2016 by Andrew Potts (US ICOMOS). Peter Phillips and Kirsti Kovanen spoke of the journey ahead – Culture Nature which will be continued at the 2017 General Assembly in Delhi. Andrew Potts has provided information about the outcomes of the Journey in 2016 and they are included on the package of documents on the USBs provided for the Istanbul meetings.

		The Nature Culture Journey was over a year and half in preparation and was very successful. One of the outcomes of the journey. <i>Malama Honua – to care for our island Earth: A Statement of Commitments from the Nature-Culture Journey Participants at the IUCN World Conservation Congress, Hawai'i 2016.</i> A detailed report and copies of the statement have been included in your background papers by Andrew Potts.			
3-2	Proposed new initiatives to continue the Journey	PP reported that the IUCN congress was a very substantial event 10000 people, four themes at the same time, a number of journeys—nature-culture one of the journeys For GA in Delhi: There will be a call for papers on Culture-Nature Journey, ICOMOS and IUCN will again be working together. KK: Where the conference committee sees papers that would be a good match for Culture-Nature we will try and match the speakers with an IUCN partner			
3-3	Discussion	SMcT encouraged people's participation in the journey, and thanks KK Questions: Robin Riddett: How to get involved—email to PP, and he will compile a list of those interested; wait for call for papers, and prepare the papers Benedicte: How will members be informed? Through newsletter, ISC and NC  SMcT proposed a vote of thanks to Andrew Potts from US ICOMOS who did such a great job leading the Nature –Culture journey for ICOMOS over the past year. <b>4</b>	<b>Reconstruction</b>				
4-1	ICOMOS position and Action Plan	TK introduced the initiative, outlining ICOMOS action to date:: Colloquium on Post trauma Reconstruction March; Survey of NCs and ISCs- many events at regional and national events (Multiple participants from a range of countries) A workshop took place in September on WH and reconstruction with WHC UNESCO participants. Meeting recently a symposium was held in Sarajevo and the outcomes of this are being reviewed by Grellan Rourke.  Reconstruction initiative outputs so far are: Report and booklet and power point. Small drafting group convened by AC and TK is preparing a write up of the events which will be distributed to membership for comments and further input in Nov/Dec.  Another University workshop will take place in March and include ICOMOS members and non ICOMOS members. Call for seminar abstracts have already been sent and closes on 27 <sup>th</sup> October Abstracts for workshop in March welcome (timeframe may be extended?).  The Board will set up a subcommittee to build a toolkit of large scale case studies to reflect the	TK

		<p>range of approaches in reconstruction as examples. It is clear that set guidelines and charters are not appropriate, every case varies, but all can learn from examples. Toolkit of such resources to be available on ICOMOS website- via ICORP.</p> <p>Discussion and recommendations SMcT asked Toshi Kono about means of formal engagement with ISCs. TK suggested that the ISCs could contribute to case studies but we need a framework and invited interested. ISCs to nominate a focal point who would be part of such a working group. RR confirmed that it's important to get a regional coverage as disasters are different in different regions. GA reminded that reconstructions are not only in response to disasters. We need to look broadly. ICORP (Robyn), Vernacular (Gisle) and ICICH and ISCEAH (Pamela) indicated that their ISCs would be involved. BS said she was still unclear who would provide framework and guidelines and context. TK clarified he is not talking about guidelines on purpose –rather the objective is to provide a range of case studies. Need to avoid one case -based guidelines decision. ICOMOS is well placed to create such a broad toolkit of examples. Board is waiting for outcomes of Adcom discussions. SA nominated Samir Abdulac as someone who has been working on this matter in relation to Syria for some time. SA spoke on this briefly. TK recommends wants a small working group less than 10 people to work together and exchange information/outcomes case studies and test the framework and build a toolkit of large scale case studies to reflect the range of approaches in reconstruction.</p> <p><b>ACTION</b></p> <ol style="list-style-type: none"> <li><i>The Adcom supports development of a small (10) working group comprised of NC and ISC representatives to further this, with focal points from each ISC willing to help. 5-4-1	Presentation	MS made a presentation, commending the Seville Principles for endorsement by ICOMOS. This is not an ICOMOS doctrine, but an existing set of principles submitted for endorsement only..	MS		
5-4-2	Discussion and decision	Discussion about the documents status and whether there was an opportunity for meaningful input by ICOMOS as it is an existing document, not a draft. MS indicated that comments would be welcomed. Because the document was not included in the papers circulated. SB suggested that it be quickly circulated to attendees and discussed further tomorrow at the Adcom. It was agreed that the MP would circulate this document overnight and the resolution for support of endorsement would be put to the Adcom tomorrow.	MP to circulate	Evening 17/10	
<b>6</b>	<b>International Scientific Committees</b>				
6-1	Update on ISCs in formation/reformation Pre-circulated paper / to be decided	SBU provided an update on ISCs under formation and/or review: <b>PRERICO</b> – we do not yet have their final by-laws but are in contact with them (HUR) <b>Stained Glass</b> – we are still negotiating with this committee to try and achieve a suitable outcome (JR). <b>Water and Heritage</b> – Netherlands new ISC proposed recently, James Reap will be in touch regarding ISC processes. (JR) <i>Action: Scientific Council Officers will recommend to the Board at its March meeting appropriate action to reconstitute unresponsive and non-compliant ISCs as identified with the Secretariat and report on those flagging and proposed.</i>	JR		
6-2	Industrial Heritage initiative Pre-circulated paper / to be decided	Survey to identify ICOMOS roles and interest is being circulated by the Irish NC and working group. (Refer item 6-3 also)	Mary McMahon		
6-3	Technological, Industrial and Scientific Heritage (previously the Science and Astronomy initiative) Pre-circulated paper / to be decided	An initial proposal from Michel Cotte has been received and is included in the papers. Michel Michel made a presentation. Proposal includes co-operation with international astronomical studies and technology and science fields and TICCIH. He considers the joint principles with TICCIH are important but we need to build our own expertise and promote our own competency. GA commented that he was concerned that an ISC was being proposed to service the WH committee. Either it needs to be re-shaped or brought to the World Heritage unit of ICOMOS.  SBU proposed a meeting between Michel Cotte, Grellan Rourke and Dierdre McDermott regarding these overlapping issues and proposals whilst together in Istanbul and report to the Adcom. Irina Imandescu said that she was here to represent TICCIH. GR said he would also involve her in that meeting.	MC  GR to coordinate meeting

6-4	New Annual Reporting arrangements	<p>SB presented the proposed changes to the Annual report and rationale, aimed at improving communications within NCs and ISCs- new templates and processes to streamline the annual report process, introducing a short annual report aiming to get basic information for use in promotion and get general information about the NCs Then a longer triennial report in GA year which includes compliance matters that will be prepared for next year in Delhi Aim to have these reports to be made available online. System trialled this Most ISCs provided ARs but NCs slower. The new format was extremely useful in identifying issues and joint projects and concerns. We are aiming to upload these reports to share information on ICOMOS website.</p> <p><i>ACTION:</i> Template for triennial report will be circulated prior to end of year to facilitate ALL committees responding in time for compilation prior to Delhi GA. Secretariat and ACOs to action initially, then all NCs and ISCs</p>			
<b>7</b>	<b>ISCs and Young Professionals</b>		SB		
7-1	Presentation from YP working Group	This report was presented by TK in Amel Chabbi's absence. Toshi, Gideon and Sheridan are the board members responsible. A workplan and recommendations for action will be circulated tonight and presented to the Adcom tomorrow. The SC noted the work undertaken with thanks, recognising the importance of refreshing and regenerating ICOMOS.	TK		
7-2	Case studies and initiatives	<p>ISCs and NCs were invited to provide examples of initiatives to engage with YPs. Only 20C ISC and the Australia ICOMOS NC responded with examples.</p> <p>SB presented the 20C ISC mentoring programme which is just commencing. KD presented on some examples from AICOMOS. Mentoring programme works well because of support from AI members in universities that encourage people to participate. AI encourages members to participate in the US ICOMOS internship programme. AI has a dedicated webpage on NC website and holds informal functions to facilitate discussions between young professionals and more established professionals about their ICOMOS experience. Emerging Young professional and trade Presidents Awards commenced this year with a cash prize, free membership for 1 year and annual conference registration.</p>	SB KD		
7-3	Discussion	SB asked if there were any other examples that attendees know of. None were forthcoming. There is strong interest in sharing ideas and examples of engaging YPs that work well. ICOMOS development of social media presence is important for direct YP communications. University initiative also holds potential. Some committees may need particular encouragement to open engagement. Consideration needs to be given to this being a committee compliance matter.

		SMcT noted that it is a noble cause but there a number of initiatives presented that if done well will have financial implications and she asked about the agreement signed between the government of Norway, IUCN and ICCROM this year ICOMOS is not a signatory and funding to advance initiative is provided to the other two advisory bodies. GJ suggested that there have not been enough active people to take over this initiative and IUCN has the most active person in this area and we should not see it as exclusion but an opportunity. <b>ACTION</b> <i>SBU suggested that a small group consisting of PP, KK and MK get together and provide a refined recommendation as a resolution with rationale to Adcom.</i>
