He wished to delegate and to largely involve the members of the Bureau. Each of them had the opportunity to express themselves during the preliminary meetings. There is little to add except the satisfaction of the President to see that this delegation has been very fruitful.</p> <p>A special emphasis is given to the various programmes of ICOMOS and especially to World Heritage and young professionals, the new generation of ICOMOS members to prepare to assume the responsibilities within ICOMOS.</p> <p>For these points, the President would like to thank in particular: Ms Sheridan Burke, Mr Gideon Koren and Mr Toshiyuki Kono.</p> <p>Rather than pursue the project of ghost committees, it appeared more pertinent to rely on the</p>

		<p>National Committees for their real strength and their representativeness. Mr Gideon Koren worked on the creation of new model statutes for National Committees. A special emphasis is on the countries of the Eastern Caribbean.</p> <p>A new initiative is reflecting on the theme of reconstruction. The aim is to move towards the adoption of a guidance document setting out the principles guiding reconstruction. This document would address the issue globally, whether the destruction is due to natural catastrophes or conflicts of all kinds.</p> <p>Special thanks to ICOMOS Saudi Arabia for financing the translation of documents in Arabic.</p> <p>Special thanks to Mr Peter Phillips for his work on the new ICOMOS Statutes and their evolution.</p> <p>A special mention to the International Secretariat and to Ms Marie-Laure Lavenir for effective and productive work that has led to the skillful and successful resolution of many problems.</p> <p>Generally, the report is that of a healthy and interactive organisation with a promising future.</p> <p>A special mention to Mr Samir Abdulac assisted by Mr Mario Santana Quintero for their work in favor of the digital documentation of monuments in Iraq and Syria (Project Anqa).</p> <p>Thank you for this wonderful Bureau, thank you to everyone who contributed greatly to the work of the president.</p>

		<ul style="list-style-type: none"> • The financial report has been previously discussed in the General Assembly. • A correction needs to be made to the financial report that was circulated (e-News n° 133 and USB key). There is mention in the draft financial report of payments of a small amount made for the benefit of members of the Bureau. These are by no means payments, as they are forbidden by the ICOMOS Statutes, but repayments of actual costs. The report will be corrected accordingly. • In the absence of quorum, how can full discharge be granted to the Board and Treasurer? <p>In failing to adopt the resolution, it is proposed to recommend the adoption of a resolution to discharge the Board and the Treasurer.</p> <p>Recommendation: Proposal adopted unanimously by those present.</p> <p>The 2017 budget proposal was also submitted in advance and distributed through the same channels.</p> <p>We can confirm that the financial situation is becoming healthier. This is an opportunity to especially give thanks for the donations of the National Committees and those of individual members to the various ICOMOS programs, including the Raymond Lemaire Fund and the Victoria Falls Fund.</p> <p>Thanks to the National Committees of Austria, Belgium and Norway for their involvement in the issue of human rights.</p> <p>Thanks to ICOMOS China for its contribution to the reflection on the issue of reconstruction in Asia and ICOMOS Germany for its contribution to reflection on the subject of reconstruction.</p> <p>One point, however, remains in question: the viability of the financial model of ICOMOS. The ICOMOS budget is based mainly on donations and contributions in kind and of skills.</p> <p>Such a situation raises the question of the viability of an organization that bases its work on donations but does not produce income. To this must be added the considerable contribution that represent expenditures incurred by individual members (actual and added value of their skills).</p> <p>The issue of fundraising seems likely to be discussed again by bringing back the already formed working group on this topic. Its operation, for simplicity, must be based on a dialogue via internet and email.</p> <p>Recommendation:</p>

4	Adoption of the annual accounts and budget	
4-1	Approval of the 2015 accounts and discharge of the Board and Treasurer from liabilities (Recommendation AGA 2016/4)	<p>Under the provisions of French law, the ICOMOS Statutes require the approval of accounts in order to grant discharge to the President and Treasurer and to formally approve the draft budget for 2017. Due to the absence of quorum, it is not possible to vote for these purposes.</p> <p>It is therefore proposed to the voting members of the National Committees to decide on:</p> <ul style="list-style-type: none"> • The recommendation of an agreement of the General Assembly on the approval of the accounts and the discharge given to the Board and Treasurer for the 2015 fiscal year. • The recommendation of the agreement of the Assembly on the draft budget for 2017. <p>These two points were treated in 2 separate votes.</p> <p>Recommendation: The General Assembly unanimously approves the reports of the President and Treasurer and the 2015 accounts. It grants full discharge to the Board and Treasurer.</p>
4-2	Approval of the 2017 budget (Recommendation AGA 2016/5)	<p>Recommendation : Unanimous agreement of those present. (0 objections and 0 abstentions).</p>
5	Adoption of the new Rules of Procedure for General Assemblies	
5-1	Presentation of the proposed new rules of Procedure for General Assemblies	<p>The new Rules of Procedure for the General Assemblies was presented by Mr Peter Phillips.</p> <p>It is not possible to approve the changes previously studied due to lack of quorum. The adoption of these amendments can be proposed after gathering of observations and recommendations of the General Assembly.</p> <p>The issue focuses on a specific point: the ability to compose in the year n-1 Committees of the General Assembly to enable them to work before the General Assembly.</p> <p>It is therefore proposed that the General Assembly of the year n-1 approve the establishment of the following Committees of the General Assembly of the year n.</p> <p>- Candidatures</p>

		<p>- Credentials - Resolutions</p> <p>It is again noted the strangeness of a situation where many committees sent representatives with powers to vote and who are blocked in their ability to officially vote by the organisation's regulations. What formality can be found to remedy this situation that is not rewarding for those present.</p> <p>It is recalled that this blockage is related to the fact that several National Committees did not submit the official list of voting members.</p> <p>This has become part of the current regulation of the ICOMOS Statutes. It cannot be infringed upon. A reminder of this rule can be made to the National Committees.</p> <p>It is proposed to provide an additional specific provision requiring that each of the three Committees thus created presents a report on its work for approval by the General Assembly in 2017.</p>
5-2	Adoption of the new rules of Procedure for General Assemblies (Recommendation AGA 2016/6)	<p>The General Assembly is, after debate on the scope of the vote, consulted for: recommending approval of the establishment of Committees of the General Assembly on the terms specified above.</p> <p>Recommendation : The present voting members vote mostly favorably (1 abstention).</p>
6	Other business	No other business.
7	Closing	
7-1	Invitation tot the 10 th General Assembly (Delhi 2017)	<p>The President of the Annual General Assembly thanks those present for their contributions and announces the President of ICOMOS India, Mr Rohit Jigyasu.</p> <p>After an Annual General Meeting in Istanbul, Turkey, where Europe and Asia meet, the President of ICOMOS India proposes that the next General Assembly of ICOMOS be held in Delhi (India).</p> <p>Projection of a movie on India.</p> <p>The invitation is unanimously approved.</p>
7-2	Vote of thanks	The President of the Annual General Assembly formally thanks all members of ICOMOS Turkey for their contribution to this Annual General Assembly. She also thanks the representatives of the ICOMOS National Committees who are present.
