Activities of ICOMOS

1 ICOMOS and the World Heritage Convention

Article 3

The ICOMOS procedure for evaluating nominations to the World Heritage list

- 1 The evaluation process will be coordinated by the ICOMOS International Secretariat.
- 2 The timetable and structure of the evaluation process will be in accordance with the Operational Guidelines.
- 3 For each nominated property, ICOMOS will assess whether it demonstrates outstanding universal value as defined in the Operational Guidelines, whether it meets one or more criteria for inscription and the conditions of authenticity and integrity, whether legal protection is adequate and whether the management processes are satisfactory.
- 4 The President will chair the World Heritage Panel or will appoint a Chair or two co-Chairs. The Panel Chair(s) shall appoint the World Heritage Panel on the advice of the ICOMOS World Heritage Units. The Panel shall comprise individual ICOMOS members who collectively are gender balanced, represent all regions of the world and possess a wide range of relevant cultural heritage skills and experience, chosen each year for their particular area of expertise based on the nominated properties.
- 5 The ICOMOS World Heritage Panel, after acquainting itself with all the information provided by the International Secretariat, ICOMOS advisers, expert desk reviews from within the ICOMOS network or from partner organisations or other entities with specific expertise, and technical evaluation missions, will analyse the information and determine the organisation's position. The opinion of any other party involved in the evaluation process does not necessarily reflect that of the organisation.
- 6 Technical evaluation missions for mixed properties and for some cultural landscapes will be carried out jointly with IUCN.
- 7 The ICOMOS International Secretariat will respond to any allegations by States Parties of factual errors in the evaluations.

Article 4

Involvement of ICOMOS International Scientific and National Committees

- 1 The ICOMOS International Scientific Committees will be consulted in the evaluation and monitoring processes according to their area of expertise, in particular for review of the justification for inscription of nominated properties and for the identification of experts for technical evaluation missions.
- 2 ICOMOS will inform its National Committees of nominations submitted by the governments of their countries. National Committees will normally also be informed of the identity of the experts who will undertake the technical evaluation missions, and will be consulted concerning the nomination. ICOMOS will also normally consult with an accredited and active National

Committee before issuing reports or statements on World Heritage properties within the country of the National Committee, in accordance with Article 126.

- 3 National Committees and International Scientific Committees must only make contact with UNESCO and the World Heritage Centre through the ICOMOS International Secretariat.

Article 5

Reports on the state of conservation of properties inscribed on the World Heritage List

- 1 The International Secretariat will coordinate the monitoring of the state of conservation and management of properties inscribed on the World Heritage List through the organisation of reactive monitoring missions and advisory missions.
- 2 ICOMOS will provide technical advice on specific issues (such as development projects and management plans) relating to certain properties, and also draft reports on the state of conservation of properties that are finalised in conjunction with ICCROM and the UNESCO World Heritage Centre for examination by the World Heritage Committee.

Article 6

Requests for advice and assistance, and development of the Convention

- 1 The International Secretariat will coordinate the provision of advisory missions and advice to States Parties and to the UNESCO World Heritage Centre relating to properties being considered for nomination, or already inscribed on the List.
- 2 ICOMOS will contribute to all aspects of the intellectual development of the Convention, through regional conferences and workshops, and the publication of manuals, reports and thematic studies.

Article 7

Implementation of the ICOMOS World Heritage mandate

- 1 ICOMOS will base its evaluations and other opinions on research and peer review.
- 2 Whilst as a standard practice ICOMOS will consult the National Committees concerned with a property that is being evaluated, in all other steps of the process it will draw only on experts from countries other than the State Parties concerned. Experts for technical evaluation missions will normally be from the region in which the property is located.
- 3 In its evaluation of a property, of state of conservation reports relating to it, or of assessment of threats to it, ICOMOS will not use experts who have been involved with the preparation of its nomination file, the development of the management system or plan or any other study, or with the preparation of a state of conservation report submitted by the State Party.
- 4 With regard to advancing the nomination of a property, experts involved in ICOMOS' World Heritage work are required to disclose to ICOMOS any direct advice given on particular nomination files along with the particular circumstances of the service provided. This applies to mission experts,

- desk reviewers, advisers, and members of the World Heritage Panel. This is not intended to include academic commentaries of a general nature.
- 5 National Committees and International Scientific Committees shall be asked to disclose any involvement they have in World Heritage nominations, as well as identifying individual members involved in such work.
 - 6 World Heritage Panel members shall not participate in any discussions related to nominations or state of conservation reports related to sites in their own countries.
 - 7 All experts and members involved in the preparation of nomination dossiers, which includes advising on, providing recommendations on, or in any way furthering such a nomination, but excluding any academic work not related to a specific nomination, shall not take part in any discussion of the nomination at the World Heritage Panel or undertake missions or desk evaluations for these nominations.
 - 8 In its field evaluations, ICOMOS will not use experts who are currently serving as representatives of their countries on the World Heritage Committee.
 - 9 Experts must all be aware of the ICOMOS Ethical Principles and are required to abide by them.
 - 10 During discussion of a report or situation that concerns their own country, members of the World Heritage Panel and advisers must be absent from discussion and decision-making processes.
 - 11 The recommendations to the World Heritage Committee adopted by the ICOMOS World Heritage Panel, or by a working group of the Panel mandated to evaluate additional information, are final and may not be changed or amended in any way other than by the Panel itself.
 - 12 When new information concerning a nomination is submitted by a State Party, ICOMOS can only take it into account in evaluating the nomination if the information is received by the deadline set by the Operational Guidelines.
 - 13 The recommendations and opinions of ICOMOS experts and the World Heritage Panel are confidential, and individuals may not in their independent capacity engage with the media, representatives of the State Party or any other individual or organisation that may or may not have an interest in the property concerned. Officials of ICOMOS and members of its World Heritage Panel (including observers) may not disclose the discussions that have taken place in the Panel to any person or organisation that was not present in those discussions.
 - 14 The names and qualifications of the members of the World Heritage Panel may be published only after the ICOMOS evaluations have been finalised. The names of desk reviewers will not be disclosed.
 - 15 In the event that a member of the World Heritage Panel or an expert used in ICOMOS World Heritage processes fails to implement any aspect of this policy, sanction/s shall be applied. These shall be determined by the Board and shall be relative to the severity of the breach. In cases where the breach is considered to have compromised the credibility of ICOMOS as an objective and unbiased adviser to the World Heritage Committee

and UNESCO, the individual concerned shall automatically be debarred from further participation in ICOMOS work associated with World Heritage matters and other areas of its work where it is important that the organisation be seen to be impartial.

Article 10 Procedure

- 1 The need for a new ICOMOS doctrinal text shall be carefully assessed by the Advisory Committee and the Board, taking into account the characteristics and requirements of the four types of ICOMOS doctrinal texts.
- 2 The assessment of the need for a new ICOMOS Doctrinal Text shall be initiated through the presentation of a very brief summary of what is to be covered by the doctrinal text, a motivation of the need for and precise purpose thereof and discussion of the category/ies for which it might be considered by the Advisory Committee and Board. This step must take place before the presentation of any substantial text to the Advisory Committee and Board, other than in very exceptional circumstances, before the drafting of such a text commences.
- 3 A doctrinal text shall be either prepared or studied by an International Scientific Committee or by an ad hoc committee designated for this purpose by the Board. The Board will decide if and to what extent partner organisations shall be associated to develop new ICOMOS doctrinal texts.
- 4 The International Secretariat shall inform the ICOMOS National and International Committees and the ICOMOS membership, that a new doctrinal text is being prepared.

- 5 A new doctrinal text and any report concerning such texts shall be prepared simultaneously in all working languages and, whenever possible, in additional languages such as Spanish.
- 6 The draft of a new doctrinal text shall be distributed to all the ICOMOS National and International Committees and the ICOMOS membership for comment and review.
- 7 A revised draft, with a report explaining how the comments on the earlier draft have been incorporated and a compilation of the comments received, shall be distributed to all the ICOMOS National and International Committees and the ICOMOS membership.
- 8 The revised draft of a new doctrinal text must be put on the agendas of the meeting of the Advisory Committee and Board, and must be discussed at least one year preceding that of the General Assembly at which the text is proposed to be adopted.
- 9 The Advisory Committee shall assess the substance and structure of the revised draft of a new doctrinal text and recommend action to the Board; it shall make a specific recommendation concerning its title.
- 10 If necessary, the consultation process with the ICOMOS National and International Committees [and the ICOMOS membership] shall be repeated until a final draft text has received a positive recommendation by the Advisory Committee and the approval of the Board. The revised draft of a new doctrinal text must have received the approval of the Board at least six months prior to the General Assembly at which it is proposed for adoption.
- 11 The draft new doctrinal text shall be redistributed in its final revised form to all the National and International Scientific Committees and the ICOMOS membership, at least four months before the General Assembly, with a view to its adoption by resolution.
- 12 When an existing Doctrinal Text is proposed for amendment, the Board shall first decide whether the amendment is minor and more technical in nature or whether it is a major and more substantial amendment. For minor amendments, only Article 9 and Articles 10-3 to 10-7, as applicable, will apply to the approval procedure, and a minor amendment to an existing Doctrinal Text may be adopted by the Scientific Council with no further proceedings needed. The approval procedure for major amendments to existing doctrinal texts shall follow the same procedure as for new doctrinal texts.
- 13 The final versions of all doctrinal texts must be produced in French, English and Spanish, and may be produced in other languages.

3 International Day for Monuments and Sites

Article 11

Aim of the Day

The aim of the International Day for Monuments and Sites, celebrated each year on 18 April, is to link a global theme to local or national realities and to encourage local communities and individuals throughout the world to consider

Article 12

Selection of annual theme

- 1 Suggestions for global themes for the International Day for Monuments and Sites shall be submitted to the Advisory Committee at the latest by its annual meeting the year before.

Article 18

Refusal of membership applications

- 1 Applicants who have not received a response to an initial application to their National or Transnational Committee are advised to make a second application. Applicants whose applications have been refused by the Committee should in the first instance make use of any appeal mechanism which the Committee may have established.
- 2 Persons or institutions who have applied to be members of their National or Transnational Committee and whose applications have been persistently refused or ignored by the Committee, or who have applied for membership to the International Secretariat and have been refused by the Bureau, may appeal to the Board in accordance with Article 86.

2 Payment of fees and provision of membership cards

Article 19

- 1 In countries where an ICOMOS National or Transnational Committee exists, individuals or institutions that are members of that Committee shall pay to it the membership fee determined by the Committee, by the due date that the Committee also determines.

3 Non-compliance, appeals and sanctions

Article 21

Allegations of non-compliance or other misconduct

- 1 An allegation of non-compliance with the Statutes or Ethical Principles, or of any other serious cause, may be made against a member of ICOMOS by another member, a National, Transnational or International Scientific Committee, or a member of the public.
- 2 Any such allegation must be made in writing, must name the member against whom the allegation is being made, and be signed and dated by the complainant. The allegation must also state when and where the alleged non-compliance or other misconduct is alleged to have occurred and where applicable the Article(s) of the Statutes or Ethical Principles alleged to have been breached.
- 3 The written allegation should be submitted as follows, with a copy of the allegation being sent at the same time to the International Secretariat:
 - a in the case of an allegation relating to the member's involvement with an International Scientific Committee, to that International Scientific Committee;

- b In the case of non-compliance with obligations at the international level, or where the member does not belong to a National or Transnational Committee, to the Bureau;
 - c In all other cases, to the National or Transnational Committee to which the member belongs.
- 4 ICOMOS will use its best endeavours to ensure that any people investigating or dealing with an allegation are unconnected with the allegation in any way that is likely to involve self-interest, conflict of interest or bias.
 - 5 The allegation must be acknowledged in writing, and the member against whom the allegation is made must also be notified of the allegation in writing.
 - 6 In acknowledging the allegation and notifying the member concerned, both parties will be asked to confirm that no other procedures outside the complaint to ICOMOS (such as legal action) are in progress. If any such procedures are in progress, both parties will be advised that the allegation will not be formally recorded or dealt with until those procedures have been concluded.

Article 22

Review of allegations of non-compliance or other misconduct

- 1 In the absence of any other procedures, and in the interest of resolving the allegation informally through negotiation, ICOMOS will initially refer the complainant to a senior member of ICOMOS with whom the allegation can be discussed.
- 2 If the allegation is not resolved through negotiation, the relevant National, Transnational or International Scientific Committee, or the Bureau, as applicable, will review the allegation, and decide whether the allegation warrants sanction for non-compliance with the Statutes or Ethical Principles, or for other serious cause. If a National, Transnational or International Scientific Committee is minded to impose a sanction, it must confer with the Bureau before finalising its decision.
- 3 Following the decision, the member concerned (and the complainant where appropriate) must be informed of the decision and of the reasons for it. If the decision is to impose a sanction or to strike the member from the register, the member must in addition be called to provide an explanation, and be informed of the right of appeal to the Board in accordance with Article 87. The right of appeal must be exercised within two months of the member being informed of the decision.

- 6 The criteria for selection of Honorary Members will be determined by the Board.

5 Awarding missions and contracts to members

Article 24

Principles for the award of missions and contracts

- 1 ICOMOS will make every effort to provide all of its members access to ICOMOS missions and contracts for which they are fully qualified.
- 2 ICOMOS expects all members, approached in the name of ICOMOS to provide their expertise, to bring the request to the attention of the Bureau and/or the Director General for a decision on the award of work.

Article 25

Procedure for the award of missions and contracts

- 1 The Director General (and as required, the ICOMOS Bureau) will take the following considerations into account in awarding missions and contracts:
 - a the fit between the cost of the member's services and the technical demands of the work
 - b the geographic proximity of the member to the site, and the cultural familiarity of the member with the site

- c the desire to share opportunities as equitably as possible among all members
 - d satisfaction with a member's performance in carrying out previous ICOMOS work.
- 2 No special preference will be given to members of the ICOMOS Bureau, Board, Advisory Committee or Scientific Council in awarding work.

General Assembly

1 Selecting the host for a General Assembly

Article 26

Submission of bids

- 1 National or Transnational Committees, or groups of such Committees, wishing to host the next General Assembly at which a general election for the Board is to be held should submit an expression of interest accompanied by a preliminary draft bid to the International Secretariat. If the expression of interest is submitted by a group of National Committees, they must designate one of these as the coordinator.
- 2 The expression of interest and draft bid should be submitted at least 2 weeks prior to the Board meeting held in conjunction with the Advisory Committee meeting four years prior to the year of the General Assembly to which the expression of interest relates. The formal proposal to host the General Assembly must be submitted no later than 15 January in the year three years prior to the General Assembly to which the proposal relates.
- 3 National Committees wishing to host a General Assembly other than one at which a general election for the Board is to be held should submit a formal proposal before 15 February of the preceding year.
- 4 The Board will prepare Terms of Reference for hosting General Assemblies and associated meetings and events.
- 4 All bids should be submitted to the International Secretariat using the Terms of Reference format and checklist for potential National Host Committees, should include a budget demonstrating that all the requirements of the checklist can be accommodated, and should be submitted in electronic format. Bids should not exceed 15 pages excluding annexes, which should also be kept to a reasonable length.

Article 27

Assessment of bids

- 1 Each bid received will be verified for completeness by the International Secretariat. Formal bids not meeting the essential requirements of the Terms of Reference will be considered incomplete.
- 2 Complete formal bids will be referred to the Advisory Committee for advice, and the Board will take that advice into consideration when assessing the bids.
- 3 The Board will consider all complete formal bids and invite a representative from each National Committee in question to present their bid, if they so wish, at the Board meeting at which the bids are being considered.
- 4 The decision of the Board will be final.
- 5 The criteria for assessment of bids are:
 - Heritage significance of the proposed location, conference venue, accommodation

- Relevance of the proposed theme
- Rotation between regions and countries where General Assemblies have been organised in the past
- Commitment by the national authorities to provide entry visas/permits to all members of ICOMOS regardless of nationality
- Opportunities to visit and experience local heritage places
- Accessibility of the location and of the conference venue
- Participation of the National Committee(s) in previous General Assemblies, if any

Bids that meet all essential requirements, and offer desirable/optional services, will be regarded more favourably. National Committees that have never hosted an ICOMOS General Assembly will be given priority.
